600	22 X 3 X 5	600	424 X 424	3-18
800	22 X 3 X 5	800	560 X 560	3-18
1000	22 X 3 X 5	1000	700 X 700	3-18
1200	22 X 3 X 5	1200	850 X 850	3-18

- Suitable for cutting all kinds of ceramic tiles, such as wall tiles, polished tiles and polished glazed tiles.

### 3. Assembly Instructions

3.1 Screw to loose the ball cap, take out the scoring cutting wheel

3.2 Loose the handle and put in the cutting wheel then fasten the handle, choose 4 for cutting 4mm tiles, choose 10 for cutting 10mm tiles etc..

### 3.3 Fix the Straight and Swiveling Guide with two bolts and adjust the side ruler to the required angle

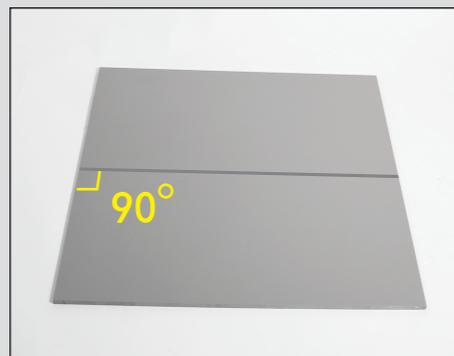

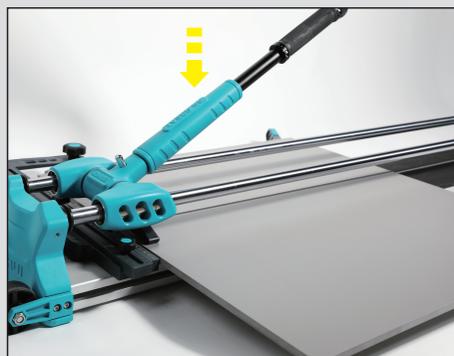

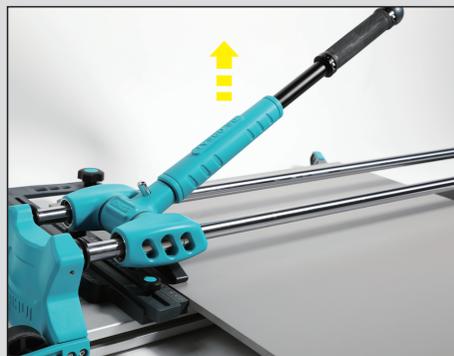

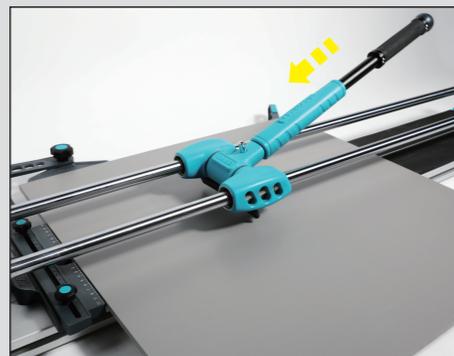

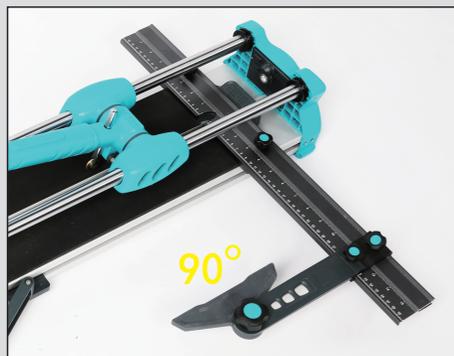

### 4. Using Instructions

- Lines must be cut continuous and clear.
- Always draw a line on the tile surface first before cutting.
- Just apply a little pressure on the tile so the cut will be smooth and flat.
- Don't exert too much pressure when cutting because it may cause uneven tile cuts and damage to the cutter's blade.

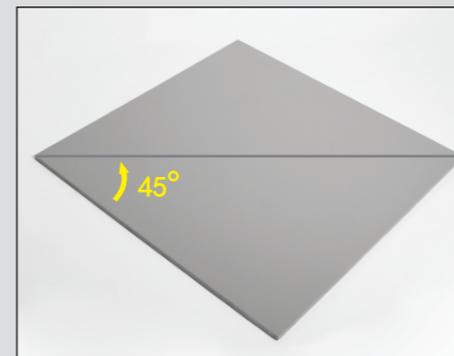

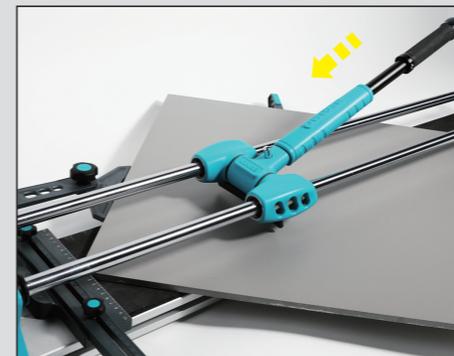

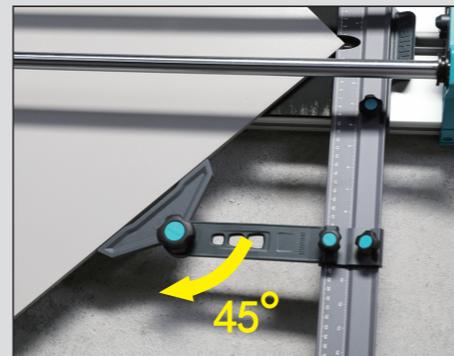

4.1 Cutting thickness engraved on the cutting wheel. choose 4 for cutting 4mm tiles, choose 10 for cutting 10mm tiles etc..

### 90° Cutting

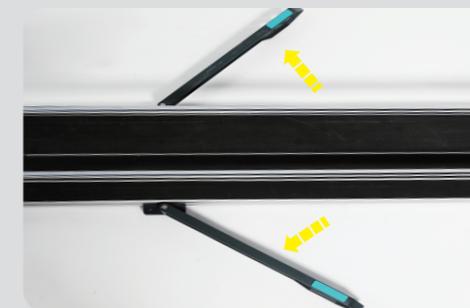

### 45° Cutting

- LED light for dark working environment
- Laser for precise cutting

- Extend Inclined Bracing 2pcs for 800mm and 1000mm, 4pcs for 1200mm
- Transport wheels available for 1000mm and 1200mm

### 5. Cleaning and Maintenance

- Remove any dirt or residue from the tile cutter
- Replace the scoring cutting wheel if it was worn
- Change the batteries if LED & Laser is not working
